Bulb trim profiles are dual durometer rubber seals with separate bulb and retainer sections. Typically, the bulb is made of a medium-density foam or sponge rubber such as EPDM.

### Bulb Trim

**Part #: EC28-201-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-212-EM**
- Tolerance: RMA-E3
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-215-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-222-EM**
- Tolerance: RMA-E3
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-208-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-213-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-220-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-230-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Duro: 70±5
- Min. Order: 50M (164FT)
Bulb trim profiles are dual durometer rubber seals with separate bulb and retainer sections. Typically, the bulb is made of a medium-density foam or sponge rubber such as EPDM.

**Bulb Trim**

**Part #: EC28-240-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-290-EM**
- Tolerance: RMA-E3
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-250-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-270-EM**
- Tolerance: RMA E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 100M (328FT)

**Part #: EC28-274-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-315-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 50M (164FT)

**Part #: EC28-405-EM**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 600M (1968FT)
Bulb trim profiles are dual durometer rubber seals with separate bulb and retainer sections. Typically, the bulb is made of a medium-density foam or sponge rubber such as EPDM.

Edge trim selections include different grip-styles, from interior tongues, wire cores to segmented cores that offer additional impact resistance. You can also buy trim seals that are cut-to-size.
Edge trim selections include different grip-styles, from interior tongues, wire cores to segmented cores that offer additional impact resistance. You can also buy trim seals that are cut-to-size.

**Edge Trim**

**Part #: ES28-210-P80**
- Tolerance: RMA-E2
- Material: PVC
- Color: Black
- Duro: 80±5
- Min. Order: 45M (150FT)

**Edge Trim**

**Part #: ES28-215-P80**
- Tolerance: RMA-E2
- Material: PVC
- Color: Chrome
- Duro: 80±5
- Min. Order: 45M (150FT)

**Edge Trim**

**Part #: ES28-280-P80**
- Tolerance: RMA-E2
- Material: PVC
- Color: Black
- Duro: 80±5
- Min. Order: 30M (100FT)

For pricing, lead times & custom design options, contact sales@elastoproyx.com
U-Channel Profiles are used in finishing as an edge protector generally for sheetmetal or rough edged parts. These seals also have cosmetic uses.

U-Channel

Part #: ES32-185-E60
Tolerance: RMA-E2
Material: EPDM
Color: Black
Duro: 60±5
Min. Order: 45M (150FT)

U-Channel

Part #: ES32-123-N70
Tolerance: RMA-E3
Material: Neoprene
Color: Black
Duro: 70±5
Min. Order: 60M (200FT)

U-Channel

Part #: ES32-117-E70
Tolerance: RMA-E3
Material: EPDM
Color: Black
Duro: 70±5
Min. Order: 76M (250FT)

U-Channel

Part #: ES32-062-E70
Tolerance: RMA-E2
Material: EPDM
Color: Black
Duro: 70±5
Min. Order: 457M (1500FT)

U-Channel

Part #: ES32-007-E70
Tolerance: RMA-E2
Material: EPDM
Color: Black
Duro: 70±5
Min. Order: 304M (1000FT)

For pricing, lead times & custom design options, contact sales@elastoproxy.com
D-shaped seals provide sealing under pressure, such as when the door to a mobile equipment cabin or machine enclosure is shut. The flat part of the seal attaches with an adhesive instead of mechanical fasteners.

**Sponge Profile**

**Part #: EC12-017-EMT**
- Tolerance: TBA
- Material: EPDM Sponge
- Color: Black
- Density: Medium
- Min. Order: 152M (500FT)

**Sponge Profile**

**Part #: EC12-004-EMT1**
- Tolerance: RMA-BEC2
- Material: EPDM Sponge
- Color: Black
- Density: Medium
- Min. Order: 76M (250FT)

**Sponge Profile**

**Part #: EC12-010-MMT**
- Tolerance: RMA-BEC2
- Material: EPDM Sponge
- Color: Black
- Density: Medium
- Min. Order: 152M (500FT)

**Sponge Profile**

**Part #: EC04-100-EMT1**
- Tolerance: RMA-BEC2
- Material: EPDM
- Color: Black
- Density: Dual Duro
- Min. Order: 90M (294FT)

**Sponge Profile**

**Part #: EC04-122-EMT1**
- Tolerance: RMA-E2
- Material: EPDM
- Color: Black
- Density: Medium
- Min. Order: 60M (197FT)

**Sponge Profile**

**Part #: EC04-006-EMT1**
- Tolerance: NA
- Material: EPDM Sponge
- Color: Black
- Density: Medium
- Min. Order: 76M (250FT)

**Sponge Profile**

**Part #: EC04-130-EMT1**
- Tolerance: RMA-E2
- Material: EPDM Sponge
- Color: Black
- Density: Medium
- Min. Order: 120M (394FT)

**Sponge Profile**

**Part #: EC04-190-EMT1**
- Tolerance: RMA-BEC2
- Material: EPDM Sponge
- Color: Black
- Density: Medium
- Min. Order: 35M (115FT)
Windows channels are designed for equipment that contain specific types of window glass. These rubber products seal out wind and weather while reducing or eliminating noise and vibration.

Window Channel

**Part #: ES36-014-E70**
Tolerance: RMA-E2
Material: EPDM
Color: Black
Duro: 70±5
Min. Order: 76M (250FT)

**Part #: ES36-034-E70**
Tolerance: TBA
Material: EPDM
Color: Black
Duro: 70±5
Min. Order: 76M (250FT)

**Part #: ES35-019-E60**
Tolerance: RMA-E2
Material: EPDM
Color: Black
Duro: 60±5
Min. Order: 76M (250FT)

**Part #: ES35-020-E70**
Tolerance: TBA
Material: EPDM
Color: Black
Duro: 70±5
Min. Order: 91M (300FT)

**Part #: ES35-022-E65**
Tolerance: RMA-E3
Material: EPDM
Color: Black
Duro: 65±5
Min. Order: 45M (150FT)

**Part #: ES38-002-E80**
Tolerance: RMA-E2
Material: EPDM
Color: Black
Duro: 80±5
Min. Order: 76M (250FT)

For pricing, lead times & custom design options, contact sales@elastoproy.com
D-shaped seals provide sealing under pressure, such as when the door to a mobile equipment cabin or machine enclosure is shut. The flat part of the seal attaches with an adhesive instead of mechanical fasteners.
The top part of an E-Shape seal is a half-moon bulb that supports compression. The bottom of the seal has a flat, straight tail. The middle of the E-seal contains a slot where the installer inserts metal bar stock.

**E-Shape**

**Part #: ES14-001-S60B**
Tolerance: RMA-E2  
Material: Silicone  
Color: Black  
Duro: 60±5  
Min. Order: 38M (125FT)

**E-Shape**

**Part #: ES14-125-C70**
Tolerance: RMA-E2  
Material: SBR  
Color: Black  
Duro: 70±5  
Min. Order: 48M (160FT)

**E-Shape**

**Part #: ES14-475-S60**
Tolerance: RMA-E3  
Material: Silicone  
Color: Light Grey  
Duro: 60±5  
Min. Order: 76M (250FT)

For pricing, lead times & custom design options, contact sales@elastoproxy.com
P-shaped seals have a rounded bulb and a flat stem. The bulb provides sealing under compression. The stem or tail is used for attaching the gasket to a substrate.

**P-Shape**

**Part #: ES20-006-E60**  
Tolerance: RMA-E2  
Material: EPDM  
Color: Black  
Duro: 60±5  
Min. Order: 60M (200FT)

**P-Shape**

**Part #: ES20-055-E70**  
Tolerance: RMA-E2  
Material: EPDM  
Color: Black  
Duro: 70±5  
Min. Order: 73M (240FT)

**P-Shape**

**Part #: ES20-092-E70**  
Tolerance: RMA-E3  
Material: EPDM  
Color: Black  
Duro: 70 +5/-0  
Min. Order: 76M (250FT)

For pricing, lead times & custom design options, contact sales@elastoproxy.com
# Insulation & Matting

Insulation and matting protects equipment and operators against heat, noise, vibrations, and environmental conditions.

## Floor Matting

<table>
<thead>
<tr>

Insulation and matting protects equipment and operators against heat, noise, vibrations, and environmental conditions.

### Engine Compartment Insulation

**SH-500-58-ZMT**

**Layers:**
This three-layer composite sandwiches a layer of silicone foam between a reinforced fabric facing and a removable liner with a PSA adhesive.

**Description:**
Provides strong resistance to chemicals, oils, and mildew.

**SH-625-54-ZTBRA**

**Layers:**
Sandwiches a vibration damper between acoustical foams and includes a metal foil facing that reflects radiant heat.

**Description:**
Thermal-acoustic insulation for maximum sound attenuation over a broad frequency range.

**SH-2000-48-MEZT**

**Layers:**
A lightweight, fire-resistant melamine foam that can be combined with various facing materials and PSA liner's.

**Description:**
Combines high-temperature resistance with superior sound-absorbing properties.

### Insulation Sample Bag

Do you need thermal, acoustic, or thermal-acoustic insulation for forestry, mining, construction, or other types of mobile equipment? Maybe you need cabin flooring or floormats instead.

**Ask about our insulation sample bag** and learn how Elasto Proxy can not only provide the material, but can also cut it to size for your specifications or requirements.
Other Products

- Vibration Mounts
- Dual Durometer
- Molded Parts
- Industrial Tubing
- Weather Stripping
- Bumpers
- Silicone Connectors
- Sheeting
- Inflatable Seals

For pricing, lead times & custom design options, contact sales@elastoproxy.com
Sample Offers

Discover the ideal profile extrusion with the Elasto Sample Kit. Experience the different types of adhesive backed sponge profiles with the Elasto Sponge Kit. These profiles are in-stock and available for next-day shipping.

Elasto Sponge Kit

Do you need sponge rubber profiles for sealing, cushioning, or shock absorption? Elasto Proxy has an offer you won’t want to miss.

**The Elasto Sponge Sample Kit contains:**
Medium-density sponge rubber profiles that feature UV parts marking and our heat activated taping system (HATS).

With soft, compressible profiles like this, you can get gaskets that avoid compression set, reduce parts picking errors, and speed installation times.

Elasto Sample Kit

For rubber extrusion shapes and gasket profiles, this sample kit is the ultimate kit for you to discover the perfect profile for your application.

**The Elasto Sample Kit includes:**
- Bulb trim, edge trim, & sponge profiles.
- P-shape, U-shape, or E-shape extrusions.
- Locking, self-locking and zipper profiles.
- Durometer keychain tool.

Elasto Proxy stocks standard rubber profiles that are available for distribution or fabrication. Discover the ideal profile for your build or assembly.
